# Expander® Sealing Plugs • body from case-hardened steel 22880.0018

# **Product Description**

Expander® sealing plugs are used for safe, quick and economic sealing of bore holes in fluid technology, e.g. hydraulic drilling holes in jig and fixture construction. Assembly is effected by pressing in the sealing plug into the drilling hole by means of the prescribed setting die. Please refer to the technical data following these product information pages.

### Material

#### **Body**

· Case-hardened steel, zinc-plated, thick-film passivated

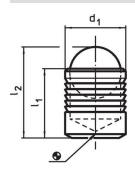

· Roller bearing steel, heat-treated, tempered

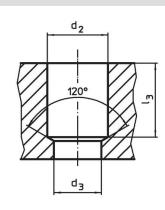

# More information

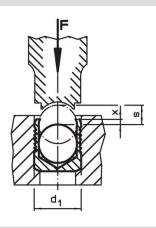

### **Further products**

- Expander® Sealing Plugs, body from stainless steel
- Expander® Sealing Plugs, body and ball from stainless steel
- Setting Dies, for Expander® sealing plug
