Tornillos Moleteados Altos • DIN 464

EH 24790.

Descripción del Producto

Knurled thumb screws are very versatile. Three material versions for the different requirements
- steel, blackened
- steel, zinc-plated by galvanization
- stainless steel

are available.
Knurled thumb screws can be easily tightened and released by hand. The ribbed outer surface of the nut prevents slipping when tightening / releasing with the fingers.
Todos los tornillos moleteados están realizados en una sola pieza. Contrariamente a la Hoja Estándar Oficial, todos tienen rosca hasta la cabeza y con una salida sin entalladura en el extremo de la rosca. Por lo tanto, los tornillos no se pueden atornillar hasta el fondo de la cabeza.

Material

- Acero, pavonado, calidad 5.8
- Acero, cincado por galvanización, calidad 5.8
- Acero inoxidable 1.4305, mate

Más información

Notas

El paso de rosca y profundidad del moleteado pueden diferir de la norma DIN.

Otros productos

- Tornillos Moleteados Planos, DIN 653
