# Index Plungers Compact • with hexagon collar

22110.0247

## **Product Description**

Index plungers are used for indexing bores.

Types with / without lock have the same building height.

Due to a thread recess the index plungers can be completely screwed in.

### **Material**

### **Body**

• Stainless steel 1.4305

### Locking pin

· Stainless steel 1.4305, nickel-plated

#### **Assembly**

The screw length can be adapted by distance collars for index plungers (EH 22120.).

### More information

### Notes

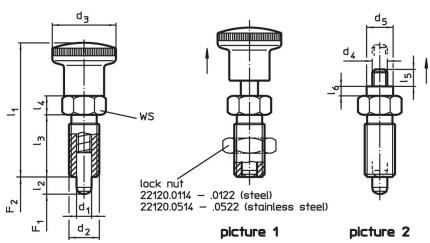

Knob not removable.

Lock nuts have to be purchased separately.

### **Further products**

- Mounting Blocks, for index bolts and index plungers, die-cast
- Locating Bushings, for index bolts and index plungers
- Distance Collars, for index plungers
