# Lateral Plungers ⋅ with plastic spring and pin

22150.0200

# **Product Description**

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

#### Material

## **Spring**

plastic

## Pin

· Steel, case-hardened, blackened

## **Assembly**

It is recommended to moisten the body.

Installation by pressing in.

Formula for calculating the center distance for

the mounting hole:

 $I_0 = z/2 + w + x$ ,

 $I_0$  = center distance,

y = workpiece height,

w = workpiece length,

x = coordinate dimension,

s = stroke,

z = stop diameter

Calculation dimension x:

y greater than or equal to  $l_2$  -  $d_2/2$ ,

then  $x = d_2/2 - s$ 

(value x for this case see table)

or

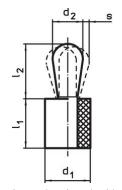

y smaller than  $l_2$  -  $d_2/2$ ,

then  $x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$ 

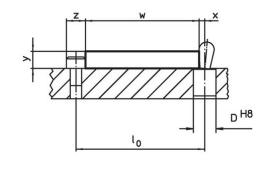

## Characteristic

Version light spring load = blue spring

# Compliance

# **RoHS** compliant

Compliant according to Directive 2011/65/EU and Directive 2015/863.

## **Does not contain SVHC substances**

No SVHC substances with more than 0.1% w/w contained - SVHC list [REACH] as of 27.06.2024.

## Does not contain Proposition 65 substances

No Proposition 65 substances included. https://www.P65Warnings.ca.gov/

## **Free from Conflict Minerals**

This product does not contain any substances designated as "conflict minerals" such as tantalum, tin, gold or tungsten from the Democratic Republic of Congo or adjacent countries.
