# **Spring Push Plungers •** with mounting flange, horizontal 22170.0110

#### **Product Description**

The spring push plungers are used for simple and secure positioning of workpieces or components on stops and support points.

The spring push plunger is designed with a thrust pad that can be rotated  $4 \times 90^{\circ}$  depending on the application.

Below  $h_2$ , a pull-down effect is created when the thrust pad is installed in the appropriate position.

#### **Material**

#### Assembly

Assembly by means of washers ISO 7092.

Body
Zinc die-cast, plastic coated, black, similar to RAL 9005, matt structure

#### Thrust Pad

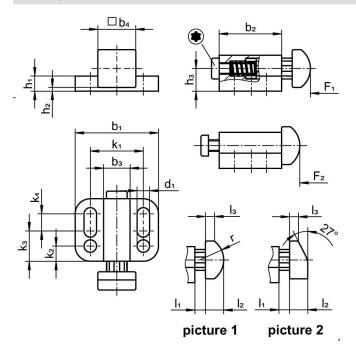

Stainless steel 1.4542

### Screw

Stainless steel A2

- Spring
- Stainless steel 1.4310

#### Drawing
