

## Spring Push Plungers · with mounting flange, horizontal

22170.1605

### Product Description

The spring push plungers are used for simple and secure positioning of workpieces or components on stops and support points.  
The spring push plunger is designed with a thrust pad that can be rotated 4 x 90° depending on the application.  
Below  $h_2$ , a pull-down effect is created when the thrust pad is installed in the appropriate position.

### Material

#### Body

- Zinc die-cast, plastic coated, black, similar to RAL 9005, matt structure

#### Thrust Pad

- Thermoplastic POM, black

#### Screw

- Steel, zinc-nickel coated by galvanization

#### Spring

- Stainless steel 1.4310

### Assembly

Assembly by means of washers ISO 7092.
