## **Ball Casters** • plastic

22751.0122

## **Product Description**

Ball casters are module for transport systems, conveyances, to working and packing facilities. For example, parts can be easily moved, turned and controlled.

Thanks to the technical properties of the plastic, the component does not require maintenance or lubrication and is also resistant to abrasion. In contrast to the steel model, the plastic model offers additional benefits such as electrical insulation and anti-magnetic characteristics thanks to the properties of its material.

#### Material

#### Cap

· Plastic, white

#### Housing

· Plastic, white

#### Bal

· Thermoplastic POM, white

## Bearing ball

· Stainless steel
