

Expander® Sealing Plugs • body from stainless steel

22880.0056

Product Description

Expander® sealing plugs are used for safe, quick and economic sealing of bore holes in fluid technology, e.g. hydraulic drilling holes in jig and fixture construction. Assembly is effected by pressing in the sealing plug into the drilling hole by means of the prescribed setting die.

Please refer to the technical data following these product information pages.

Material

Body

- Stainless steel 1.4305

Ball

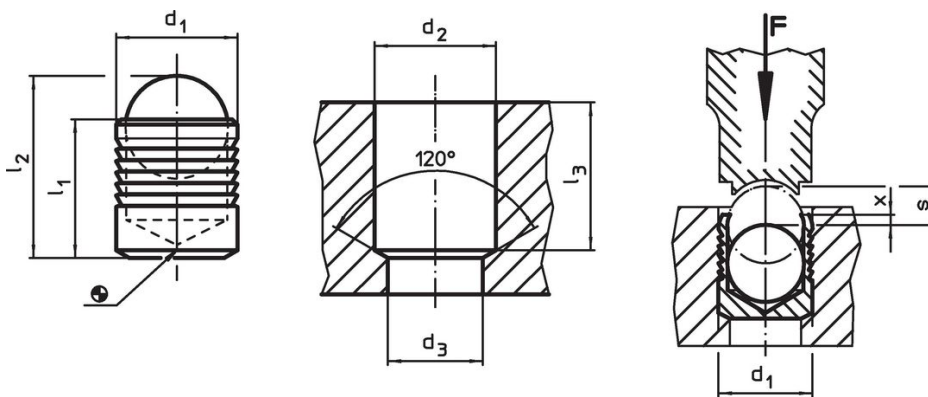

- Roller bearing steel, heat-treated, tempered
