## Adjustable Clamping Levers • with clamping screw 24410.2464

### **Product Description**

Adjustable clamping levers find versatile applications when the area of use is confined or a specific lever position is required.

#### **Material**

#### Lever

· Zinc die-cast, plastic coated, black, similar to RAL 9005, matt structure

#### Inner parts

• Steel, blackened, quality 5.8

#### Screw

· Steel, blackened, quality 5.8

#### Operation

By lifting the lever the serrations are disengaged. The lever can be positioned by the serrations. On releasing the lever, the serrations are automatically re-engaged.

#### More information

#### Notes

The screw part can be exchanged.

#### References

The version with ball-headed (picture 3) can be combined with the thrust piece, plastic (EH 22570.).
