

SIMPLEX soft-face mallets • Plastic; with aluminium housing and high-quality wooden handle

3106.050

Product Description

The SIMPLEX series 3106 is equipped with the plastic insert on either side. This red insert (series 3206) is hard and also oil and grease resistant. The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force. This makes it a cinch to process materials that break easily. Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt. In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources. This version is available in sizes ranging from D30mm to D60mm.

Product features:

- SIMPLEX soft-face mallet with plastic inserts (red, hard, oil and grease resistant) on both sides.
- The extra light aluminium housing with built-in handle protection sleeve allows the user to easily apply and control the right amount of impact force (ideal of work on materials that break easily).
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes of D30mm to D60mm.

Application Areas

Versatile use, assembly and repair work, maintenance work, sheet-metal forming, prefabricated house construction, carpenter's work, scaffold construction, tent construction

Material

Handle

- Wood

Inserts

- Plastic, red
- hard
- Oil and grease resistant

Housing

- Aluminium Al
