Lateral Plungers • with thread, with seal 22150.0460

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting. Sealed against chips and dirt.

Material

Seal • CR

Body

• Steel, zinc-plated by galvanization

Spring

Steel, zinc-plated by galvanization

Pin

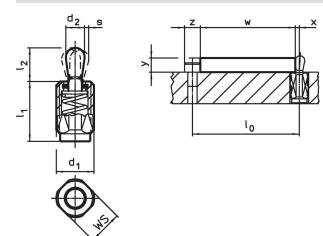

• Steel, case-hardened, zinc-plated by galvanization

Assembly

Lateral plungers are installed by screwing in by means of a mounting tool. Formula for calculating the center distance for the mounting hole: $l_0 = z/2 + w + x$, $l_0 =$ center distance, y = workpiece height, w = workpiece height, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to $l_2 - d_2/2$, then x = $d_2/2 - s$ (value x for this case see table) or y smaller than $l_2 - d_2/2$, then x = $d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$
Characteristic

Version heavy spring load = spring from steel, zinc-plated by galvanization

Application example

Compliance

RoHS compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w Contains lead - SVHC list [REACH] as of 27.06.2024.

Contains Proposition 65 substances

Lead can cause cancer and reproductive harm from exposure https://www.P65Warnings.ca.gov/

Free from Conflict Minerals

This product does not contain any substances designated as "conflict minerals" such as tantalum, tin, gold or tungsten from the Democratic Republic of Congo or adjacent countries.
