

## Ball Lock Pins • self-locking, with standard handle

22380.0040

### Product Description

For quick fastening, locking, adjusting, changing and securing. Quickly and easily unlockable for frequently repeated connections.

All versions are corrosion resistant. When using stainless steel 1.4542: high-strength, hardened, abrasion resistant pin with high load capacity.

Compact design with standard handle.

### Material

#### Pin part

- Stainless steel 1.4542, precipitation-hardened

#### Spring

- Stainless steel

### Operation

The balls are unlocked by pressing the button.

### Characteristic

Types from stainless steel 1.4542 with marking below the balls.

### More information

### Notes

Special types on request.

### Accessories

Can easily be fitted with retaining cable EH 22400.

### Further products
