# **Self-Aligning Pads** • adjustable, self-resetting 22741.0036

# **Product Description**

Self-aligning pads are used as stop, support and thrust pad and are suitable for installation in clamping elements.

By resetting to the parallel position the contact point of the self-aligning pad provides a defined initial position, thus preventing the pad clamping in an oblique position when inserting the workpiece.

## **Material**

# Spring element

Thermoplastic PUR

· Ball-bearing steel, hardened, bright

## **Body**

· Heat-treated steel, tempered, phosphated

• Steel, blackened (ISO 4035)

# More information

#### **Notes**

Ball protected against rotating. Loading capacity valid for steel and stainless steel designs.

Special types on request.
