# **Eccentric Clamps**

## 23410.0150

### **Product Description**

Eccentric clamps enable fast and safe clamping and releasing with a relatively large adjustment range and high tensioning force. The eccentric plain washer enables a stepless radial clamping effect in any clamping position. Furthermore, the eccentric clamp is self-locking. The clamp can be used as a stepless stop by removing the thrust washer.

#### **Material**

#### Gear lever handle

· Steel, ground, blackened

#### **Body**

· Steel, case-hardened, blackened

#### Scrou

· Steel, hardened, blackened

#### Ball knob

• Thermosetting plastic PF 31, black, DIN 319

#### **Assembly**

Fix with screw bolt M 10 (WS 6). Ensure a tightening torque of max. 40 Nm.

#### **Operation**

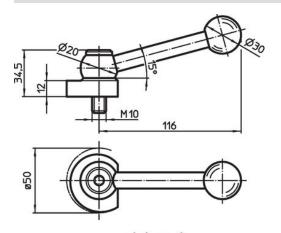

The screw bolt and the washer are adjustable. Once screwed in, the clamping catch can easily be turned to the desired position. For Art. No. 23410.0050 / .0051, the serration helps to put the tension lever to the preferred position.

#### More information

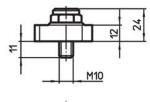

#### **Notes**

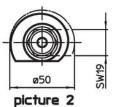

Left turn type can be supplied on request.
