# Lateral Plungers • with plastic spring and pin - INCH 2B150.0311

# **Product Description**

Material Body

Spring

plastic

Pin

Aluminium AI

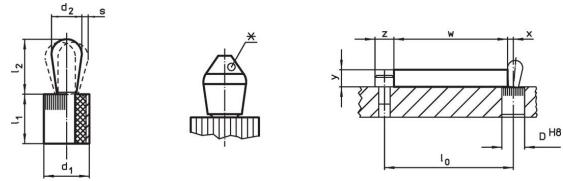

· Stainless steel

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Assembly
Installation by pressing in. Formula for calculating the center distance for the mounting hole: $l_0 = z/2 + w + x$ , $l_0$ = center distance, y = workpiece height, w = workpiece length, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to $l_2 - d_2/2$ , then x = $d_2/2 - s$ (value x for this case see table) or y smaller than $l_2 - d_2/2$ ,
then $x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$
Characteristic

Version standard spring load = red spring

### Drawing

\*some sizes (see chart) have a deviating pin shape

# Compliance

#### **RoHS compliant**

Compliant according to Directive 2011/65/EU and Directive 2015/863.

#### Does not contain SVHC substances

No SVHC substances with more than 0.1% w/w contained - SVHC list [REACH] as of 27.06.2024.

#### **Does not contain Proposition 65 substances**

No Proposition 65 substances included. https://www.P65Warnings.ca.gov/

#### **Free from Conflict Minerals**

This product does not contain any substances designated as "conflict minerals" such as tantalum, tin, gold or tungsten from the Democratic Republic of Congo or adjacent countries.
