

SIMPLEX high-quality wooden handle · for SIMPLEX soft-face mallets with cast iron housing or aluminium housing

3244.030

Product Description

The SIMPLEX wooden handles of the series 3244 are combined with the SIMPLEX soft-face mallets with cast iron or aluminium housing in sizes ranging from D30mm to D80mm. Dampening vibrations and shaped ergonomically, these high-quality wooden handles have a double coat of varnish in the grip area and are thus resistant to dirt. Their shape ensures that the SIMPLEX contours much better to the user's hand than ordinary rubber mallets. For the soft-face mallets with a diameter of 80mm, an extra short handle is also available (art. no. 3244.082).

In line with the smart SIMPLEX principle, all components can be retrofitted. This translates to savings in both money and resources. .

Product features:

- High-quality SIMPLEX wooden handles for SIMPLEX soft-face mallets with cast iron or aluminium housing and sizes ranging from D30mm to D80mm.
- Vibration-dampening.
- Shaped ergonomically.
- Double coat of varnish in the grip area (resistant to dirt).
- Long-fibre, ultra durable.
